ATTENTION
Australian Communications and Media Authority
Reference Number: 2009/103

To Whom It May Concern:

As the Mayor of Launceston I provide a letter of support to the Australian Communications and Media Authority in relation to the submission from World Music Radio Inc. to establish themselves as a community radio station.

World Music Radio incorporated is a non-profit organisation which aims to provide a community broadcasting service to the people of Launceston. As the Mayor of Launceston I support the role of an organisation that aims to contribute to the health and social wealth and education of the local community and also the aim of encouraging a cultural life of the community.

Through their commitment to increase close cooperation and connectedness amongst the local population, which will incorporate people of all ages, social, cultural and ethnic backgrounds through the establishment of a community broadcasting service would be extremely beneficial to the community.

I support the World Music Radio Inc. application for a broadcasting license to establish a community radio station within Launceston.

Yours sincerely

Albert van Zetten
MAYOR
