Enquiry Details

{First Name}: rebekah
{Last Name}: rodda
{Phone No.}:
{Email}: rjrodda@gmail.com
{Enquiry Type}: Frequency assignment
{Other Details:}:  

{Enquiry Details:}: I wish to comment on the proposed changes to the frequency of the Riverland Life FM. They have been broadcasting for quite some time from the frequency 93.9 and have built up an audience base. It seems unfair to make them switch to 100.7 to accomodate an additional ABC service - hence disrupting their current listeners and causing them to have to repromote themselves. Can't the additional ABC service take up the 100.7 frequency?
